## **EQUINE HOSPITAL APPEAL**

It has long been the ambition of Island Farm Donkey Sanctuary to have a purpose built unit where donkeys can receive veterinary treatment in a warm, safe, sterile environment. Anyone who has kept a pet will know that at some point they will probably need to see a vet and with rescued animals this is even more necessary.

Upon arrival at the sanctuary all donkeys are given an examination to assess their health and condition. With this knowledge we can plan what needs to be done to be able to start them on the (sometimes slow) road to recovery and rehabilitation.

We desperately need a facility to treat ill or injured donkeys because at the moment, if a donkey cannot be treated on site, they need to be transported to the vets. With it's own equine hospital established at Island Farm the vet can treat the donkeys and maintain their aftercare in a sterile recovery stable.

The Equine Hospital will be available for the treatment of donkeys and ponies up to 14.2 hh by mutual arrangement between the owner's vet and the Sanctuary's vet. Procedures such as gelding, sarcoid removal will be available by our vet. Fees will apply.
